During this unprecedented time, it is essential for our school and families to work together to ensure that students receive uninterrupted learning opportunities. We want to encourage everyone to commit to working together during this time to ensure that our students are learning and progressing academically.

The following is a general outline of our school's plan to meet the academic needs of our students during this time.

This plan will begin Monday, April 6. More information will be posted on each teacher's Google Classroom by Friday afternoon.

CMS Will:

- © Teachers will provide quality instruction and resources to ensure that students are learning state content standards.
- © Teachers and administrators will provide open lines of communication with students and parents (google classroom, phone calls, emails, class dojo, remind, etc.
- © Teachers and administrators will provide help and support to both parents and students with academic assignments.

Parents Will:

- ⦿ Schedule a block of time (about 2 hour time block) dedicated to school work each day.
- ⦿ Ensure that their child completes all assignments (two reading assignments each week, two math assignments, one science assignment, and one social studies assignment)
- ⦿ Communicate with their child's teachers/administrators regarding concerns and questions.
- ⦿ Ensure their child reads a minimum of 10-20 minutes each day.
- ⦿ Work packets will be created each week for students with no internet access. Parents may pick up these packets every Monday in front of the school from 11:00-12:00.

Students Will:

- ◎ Check all teachers' google classroom every day for messages and posted assignments
- ◎ Complete all assignments each week
- ◎ Serve as an advocate and reach out to teachers during their scheduled office hours to clarify any misunderstanding regarding assignments.
