Alpine, AL 35014

## Genesis Alternative Education Center Right to Student Privacy

We regard the privacy of our students as being very important. While attending Genesis Alternative Education Center, your child's identity **WILL NOT** be discussed or given to anyone outside of the school setting that does not have a responsible interest in your student. We **ARE** however, permitted to share demographic information with law enforcement officials if there is a reasonable suspicion that your child may be involved in illegal or unlawful behavior.

While assigned to Genesis, students are not permitted to fraternize or socialize with students from other schools during school hours or by using school means. Since Genesis shares the school campus with Winterboro High School, there is the possibility of your child being seen or identified by other students. These interactions would be limited to entering and exiting the building, going to get breakfast or lunch, and/or during outside P.E.

**This is to make you aware that your child may be identified by someone outside of the alternative school setting.**
